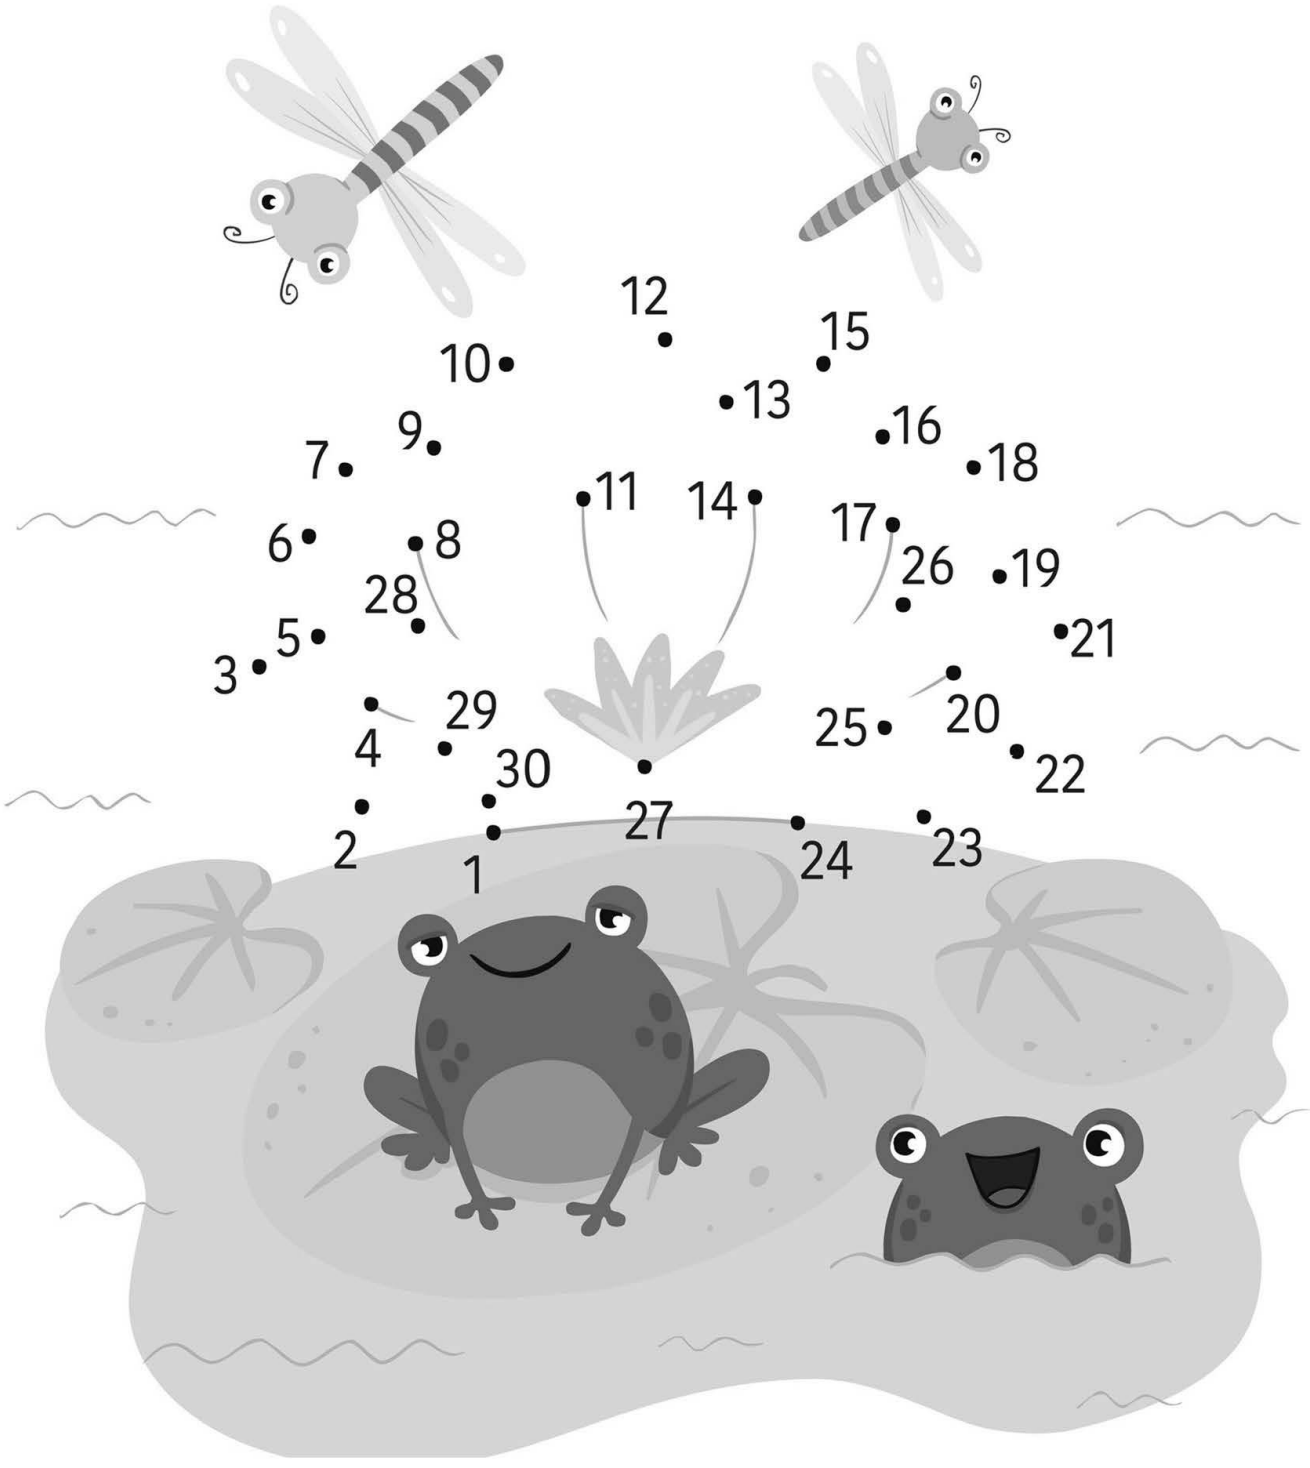
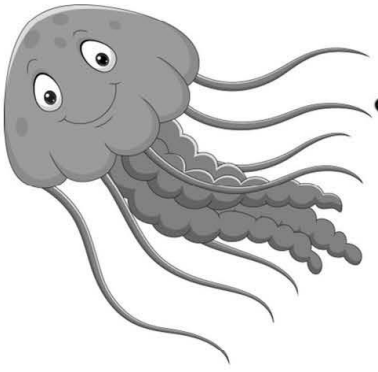
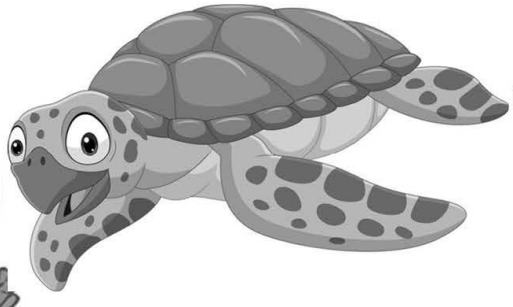
Unește punctele de la 1 la 30!



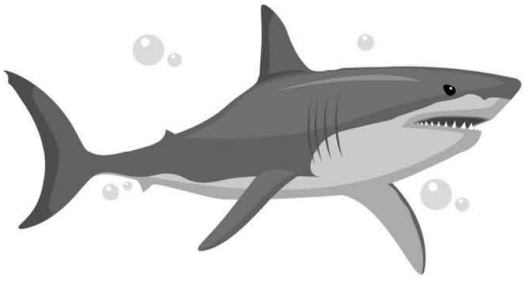
## ȘTIAȚI CĂ...?

*.... meduzele nu au creier, inimă sau oase, dar pot trăi chiar și în cele mai adânci zone ale oceanului?





*... țestoasele marine pot călători mii de kilometri și se întorc exact pe plaja unde s-au născut?



*... rechinii există de peste 400 de milioane de ani, mai vechi decât dinozaurii?
